### THE RESIDENTS OF DRAGON HALL

After Robert Toppes died, the Hall provided residential accommodation for 500 years and was lost as a trading-hall until its re-discovery in the 1970s. Based on Census records for 1841 to 1911, this is the story of the families who lived here, including two pubs, a vicarage and a butcher's shop. It presents a picture of a vibrant and varied working class community, typical of 19th century Norwich.

### MUMMERS, MOLLIES AND MYSTERY

An illustrated talk about Mummers. Do Mummers plays spring from medieval Mystery plays? Are they pagan and what is the link to strange black-faced molly dancers and other old customs? We offer a 30-minute illustrated talk, which can be followed by the entertaining performance of St George and the Dragon. (See pricing schedule)

### DRAGON HALL'S CONSTRUCTION

Richard Darrah, wood archaeologist and expert on the construction of Robert Toppes's trading-hall, has built a model which demonstrates how this amazing structure was built in 1427. With the help of the model and a specially commissioned video we explore the interior of the showroom and describe how oak timbers were used to such stunning effect.
